

dr. Ljudmila Plesničar Gec

V preteklih desetletjih so bile arheološke raziskave Emone nedeljivo povezane z imenom dr. Ljudmile Plesničar Gec (1931-2008), arheologinje in muzealke. Njeno ime je postalo sinonim za raziskave antične Ljubljane – Emone. S svojo osebnostjo in predanim delom je vplivala tako na sodobnike, kot na mlade in prihajajoče generacije. Emono in Ljubljano je s pomočjo svojih mednarodnih povezav in stikov povezala in prepletla s številnimi razstavami, kongresi in publikacijami ter obogatila tudi z in situ spomeniški prezentacijami.

Spoštovane kolegice in kolegi!

Ljudmila Plesničar Gec, PhD

In former decades the archaeological research of Emona was inextricably linked with Ljudmila Plesničar Gec, PhD (1931 -2008), archaeologist and curator. Her name became synonymous with uncovering ancient Ljubljana – Emona. With her personality and devoted work she influenced her contemporaries, as well as the younger generations. Her international contacts enabled her to link Ljubljana to many exhibitions, congresses and publications and enrich it with in situ monuments.

Dearly respected colleagues,

You are kindly invited to take part in a symposium organised in the memory Ljudmila Plesničar Gec, PhD on the 15th and 16th of April 2010 in the City Museum of Ljubljana.
